**The first step . . .**

*A 10 day workshop  
designed to provide you  
with a career goal, specific  
action steps, and the  
courage to accomplish it!*

*Having the Vision and making it  
happen ....One step at a time.*

When we are **not** aware of  
our **Life/Work Purpose**,  
we may feel:

- ❖ Lack of energy and direction
- ❖ Suffer stress/anxiety about work choices and question what we should be doing
- ❖ Feel disconnected and slip into being unproductive
- ❖ Keep repeating the same actions, hoping for a better result

When we **ARE** aware of  
our **Life/Work Purpose**,  
we may feel:

- ❖ Energized; with awakened inner awareness & direction
- ❖ Empowered and Excited about career and life options
- ❖ Reconnected with life/work passion and connected to steps that lead forward
- ❖ Able to meet changes and challenges with renewed strength and confidence
